TWO CASES COME UP IN THE LOCAL COURTS

A. V. Mandrick, an Austrian, was arrested at Vulcan on March 29th, by Corp. Allen, and charged with being a vagrant and soliciting alms. He appeared later before J. A. Lindsay, J.P., who sentenced him to thirty days hard labor in Lethbridge gaol.

Robert Haverland appeared before H. Cooper, J. P., at Champion, April 1st, to answer the charge that he did commit assault on the person of Phillip Crane and biting his ear. The accused was fined \$20.00 and the costs of the court.

MRS CHAMBERLAIN AND SON DIE OF FLU

The deaths occurred on Sunday, March 30th, of Mrs. E. M. Chamberlain and her son, John T. Chamberlain, both sufferers from the recent epidemic.

Mrs. Chamberlain, whose name was Kate M. Wolcott prior to her marriage, was born at Wheatville, Genesee Co., N.Y., September 15th, 1853. She was married to E. M. Chamberlain at her father's residence, 61 Clifton Place, Buffalo, N.Y., Jun 4th 1873. Of the marriage was born six sons and one daughter, Charles D., Frank H., Ralph E., Claude W., Hugh W., John T., and Alice B. Chamberlain.

Mr. and Mrs. Chamberlain came to Canada five years ago, and returned to Buffalo, returning to Canada two years ago, and settling in this district.

Mrs. Chamberlain leaves to mourn her loss 4 children and her husband, she was 66 years of age. The interment took place at Vulcan cemetery yesterday.

John T. Chamberlain was born at Findlay, Ohio, on November 17th, 1893.

John T. Chamberlain died at 4.25 in the morning, and Mrs. Chamberlain at 4.30 in the afternoon. It was only last Fall that Charles D. Chamberlain died from influenza.

LOCAL POST OFFICE RETURNS

The gross postal revenue for post-offices through this district are as follows:

Carmangay \$3,948.05; Vulcan \$7,781.79; Champion \$4,377.17; Blackie \$2,912.20; High River, \$9,144.42; Kirkcaldy, \$416.16; Nanton \$6,430.63; Queenstown \$253.37; Claresholm \$7,419.05.

ROYAL MUN. DISTRICT COUNCIL IN SESSION

At Which Wages And Rate Of Taxation Are Fixed; Other Matters Settled

A meeting of the Municipal District of Royal Council was held on Saturday, March 29th, when the following councillors were present: Messrs Peterson, Hill, Larsen, Parker and Smith.

A request was made by D. McClement as to the identity of Lee Douglass who appeared on the pay sheet of Div. 2 in 1918, and a motion was passed requesting J. N. Johnston, councillor of that division for 1918 to give explanation to the council.

It was moved by Smith that the secretary-treasurer use his own discretion in regard to securities offered under the Seed Grain Act for 1919 the council giving him authority to issue grain for 1919 crop on land liens or chattel mortgage in accordance with the Act.

On a motion by Hill the council requested the secretary to get in touch with the veterans in regard to getting a weed inspector for the district.

Andrew H. Allen of Edmonton was appointed auditor for the district at a salary of \$250.00 per year.

The following wages were arranged for road work for the year: Single hand, 40c per hour; foreman with team, 80c an hour; team, (2 horses) 30c per hour; (4 horses) 60c per hour.

Dr. A. O. Brown was appointed Health Officer for the Municipality

LOCAL ITEMS

Look up Reeves' advertisement... see if you are buying your groceries right.

Mr. A. G. Spooner, who has been ill in Calgary for the past week, returned to Vulcan this morning.

Pte. Murdoch, the brother of Mr. Jno. Murdoch, arrived in Vulcan today on a visit to his brother. Pte. Murdoch has just returned from overseas after having been in the war four years and five months. He joined up as soon as possible after the outbreak of hostilities.

Mr. and Mrs. Theodore Jensen, former residents of Calgary, but now living in Blackie are receiving the congratulations of their friends on the birth of a son on March 27th.

Mrs. H. C. Jacques left for Calgary on Tuesday night, where she will visit relatives for a week.

Miss Glidden, who has been visiting friends in Calgary, returned to Vulcan today.

Car of potatoes to arrive before April 15th. Price \$2.00 per sack off the car. H. W. REEVES.

Miss Bessie Thomas spent the week-end in Calgary.

Reeves' Car of Flour arrives this week. Extra special off the car \$5.50 leave your orders.

Word has been received in town that G. C. Cameron, who was on the staff of the Bank of Commerce here two years ago; was killed in action at the Front on October 1st.

Harry Douglass, who has been in hospital in Regina prior to receiving his discharge, returned to Vulcan Thursday.

Leaves your orders for potatoes at Reeves' Store. Car to arrive.

Mr. and Mrs. Roy Kehr, of Warkburg, Ind., arrived in Vulcan on Monday and will spend the summer with Mr. Kehr's parents, Mr. and Mrs. J. L. Kehr.

Reeves' have a car of B.C. spuds to arrive. \$2.00 per 100 off car.

Mr. Alfred Gano, who has been employed in the Motor Inn Garage for the past year returned on Monday to his home in Wisconsin.

Word has been received that Gunner Clarence Blaxall is lying ill in hospital in London, England. He is suffering from pleurisy following the influenza.

The weather during the past week has been all that could be desired as a prelude to Spring. The days have been fine and warm, and on Monday there was a fine three-hour rain which was the most welcome thing. The big Minstrel Show advertised in this issue for April 11th will not be shown until April 17th.

TWO TIMES—CAUSE OF ANNOYANCE

With the old time for business and the new time for the railway, things in Vulcan are in an annoying state, and people are asking why this upset is necessary. Nobody seems to know why, except that the railway has adopted new time in order, it is stated, to facilitate connection along the border. The local express office closes at four o'clock in the afternoon, and the mails leave an hour earlier than usual.

HUDSON BAY TERMINALS

The appointment of a committee to report upon the fishery resources of Hudson Bay and Straits and the character of Hudson Bay ports with regard to their fitness as railway terminals was asked in the Senate today by Senator Fowler.

at a salary of \$120.00 per year and \$1.00 per mile mileage one way for distances necessarily travelled in connection with public health matters. On a motion by Larsen the Municipal levy for the year was set at ten cents per acre.

The Provincial government is to be asked to assist the Municipality in the matter of bridges across the Little Bow.

A number of accounts were approved and ordered to be paid by the secretary-treasurer.

: AT THE LEGISLATURE :

The past week has been largely taken up with the Budget debate. The estimates provide for an expenditure approximating \$13,000,000. The Provincial Treasurer announced that there would be no new measures of taxation imposed, but that the Supplementary Revenue Tax continued indefinitely. The Government will introduce a measure amending this Act so as to put it on a more equitable basis.

Hon. A. G. McKay announced that the Government would endeavor to establish the basis of taxation in all rural municipalities on an assessment according to valuation, doing away with the acreage basis of assessment. For the time being, however, an option will be left with those municipal units now assessed on the acreage basis. Hereafter, the Government will put the obligation upon the municipalities for the collection of all taxes, whether municipal, provincial or educational. Hereafter the Government have collected their own wild land taxes, and supplementary revenue taxes. This will now be collected by the municipalities on behalf of the Provincial Treasurer.

Dr. Stanley's discussion with respect to the adequate inspection of private schools throughout the province was interesting and helpful. His criticism in this respect last year resulted in a thorough inspection during 1919. The results of these inspections were summarised by him in his address, and showed that his criticism was amply justified. Five of these private schools in the Province were closed as a result of these inspections. Other teachers have been dismissed, the Departmental curriculum demanded and the authorized text books installed for use.

The Public Accounts Committee has been investigating the charge by F. G. Forster, late Chief Liquor Inspector, against Lucien Boudreau, the member for St. Albert. Mr. M. M. Downey, of Calgary, testified that Mr. Boudreau made application to him at the Edmonton Vendor's Store for a supply of liquor on credit. Mr. Downey flatly refused this request and referred Mr. Boudreau to Webster, the vendor of the Edmonton store. Mr. Downey does not know what transpired between Boudreau and Webster. He testifies, however, that Boudreau received the liquor and had it taken away a few minutes later. Mr. Boudreau is not a druggist, but is practically the owner of the Dominion Drug Company in Edmonton. Mr. Rowland is the manager of the drug company and he testifies that he owns one share only. The committee will give its finding on Monday.

Hon. A. G. McKay outlined his health proposals for this year, including the hospital grants. It calls for a vote of approximately \$290,000. He announced that \$30,000 would be expended in supplying rural nurses and medical assistance to outlying districts. He also strongly advised medical inspection of rural schools. He was anxious that rural hospitals should be built but urged that due caution be used before districts should enter upon the scheme.

Mr. James Weir criticized the Hon. Duncan Marshall in respect to his personal livestock transactions. Mr. Weir contended that one holding the position of Minister of Agriculture in the Province should not engage in a private business in connection with the sale of livestock. A wrong estimate of the value of the stock

WANT TO GET INTO LINE FOR BASEBALL

The Advocate has today been in receipt of enquiries as to when Vulcan would be considering the getting together of a baseball team.

The enquiries are appropriate. Other towns are on the move and there is therefore all the more reason

might easily be placed by an inexperienced buyer because of the fact that the stock was recommended by one holding the prestige of Minister of Agriculture. Mr. Weir also contended that the Alberta Legislature was the only Legislature in Canada where the Ministers of the Crown took part in the Public Accounts Committee when their departments were under investigation by that committee.

The debate in respect to the administration of the Liquor Act was the most important debate of the session. Hon. Mr. Boyle, Dr. Stanley, Mrs. McKinney and Geo. Hoadley having been the chief contributors. Dr. Stanley contended that the responsibility for carrying out the selling of liquor for medicinal purposes only rested on the Government. He quoted extensively from returns in respect to doctors' prescriptions to prove that large quantities of liquor were being secured from the vendors' stores and used for beverage purposes. In the City of Edmonton, on an average of eight ounces to a prescription, the Edmonton druggists sold sufficient to fill approximately 30,000 prescriptions, in the month of January. Mrs. McKinney's address re-inforced Dr. Stanley's argument and was probably the ablest address ever delivered in the Legislature. Hon. Mr. Boyle's defense was to the effect that Alberta was the driest Province in Canada. Mr. Hoadley contended that the providing of liquor to the druggists of the Province through the Provincial vendors rested absolutely in the hands of the Attorney-General, and that the enforcement of the Liquor Law in Alberta depended upon the mental attitude of the Attorney-General on that question.

Mr. Speaker Fisher, Geo. Hoadley, E. D. Cunningham and Dr. G. D. Stanley have been on the sick list during the last week. The latter was confined to his room with sciatica but is around again and is looking better.

Premier Stewart has made a statement in regard to the Province's guarantees in connection with railway bonds. The Lacombe and Blindman's Valley Railway Company has defaulted in their payments of bonds and the provincial treasurer has had to make good by making these payments and are now operating the railroad. The Government of Alberta has also been notified that it will have to make payments of interest on bonds guaranteed by the Province on behalf of the Grand Trunk Pacific Railway Co. which has now gone into the Receivers hands. The J. D. McArthur Railways, all of which are heavily guaranteed by this Province are also financially embarrassed, according to the Premier's statement. The Government has taken advantage of the technical position of these companies which are still under construction and have paid the overdue interest on guaranteed bonds from the Trust Funds held in the bank for railway construction and which can only be paid out for capital expenditure on progress estimates. The Premier announced that this could not be repeated next year and unless McArthur could get some money from some source he must default in his payments and the Province must make good. The McArthur interests include the Edmonton, Dunvegan & B.C. Railway, and the notorious A. & G. W. Railway.

CARD OF THANKS

Mr. S. W. Colwell wishes to express his sincere gratitude for the splendid help and sympathy extended to him in his recent sickness and sad bereavement.

RED X ACKNOWLEDGEMENT

The treasurer of the local branch of the Canadian Red Cross Society desires to acknowledge the donation of \$29.00 from the Rev. A. R. Schrag and Mr. F. A. Elves.

LOCAL ITEMS

that could have happened.

Our Grocery Price List in this issue is not one of extra specials; they are regular prices. Watch each issue of the Advocate and see if you are not saving money. H. W. Reeves

The ban was taken off the pool-rooms yesterday at noon. The epidemic is on the wane in this district, and it will not be long before all bans are removed and the daily course of duty and business is being run.

Buy your flour at Reeves' \$5.75 a sack. Best Flour on the market. Car of Flour to arrive this week. Same old quality; special off the car \$5.50. REEVES.

The sale of horses and harness, the property of the late Edward Pitts, of Vulcan, will be held at Dodd's livery barn, Vulcan, on Saturday, April 12th, commencing at half past two o'clock. The sale comprises ten head of horses and two sets of harness. In addition to these there will be various other miscellaneous articles offered. Mr. C. C. Rebbe is the auctioneer.

VULCAN POULTRY WINS PRIZE—CALGARY

At the Calgary Poultry and Livestock Association's exhibition of Wyandottes last week, Mr. J. A. Lindsay, of Vulcan, was awarded the Blue Ribbon for the second best hen in the show, in the White Wyandotte class.

This speaks well for the standing of the Vulcan Agricultural Society, for the fact that they awarded Mr. Lindsay a prize at the Fair last year for a pair of White Wyandotte chickens barred him from entering in Calgary as a novice and his hen was competing in open class.

FARMING OPERATIONS

Farming is general today in many parts of Southern Alberta. Seeding will commence next week.

HAVE YOU YOUR NEW NUMBER PLATE

Have you got your 1919 automobile plate yet? Delay is dangerous according to Cpl. Allen, who states that prosecutions will be entered forthwith against all persons running cars without the proper plate attached.

CONGREGATION TAKE FAREWELL, REV. BOYD

Present Departing Minister With Club Bag; New Pastor Is W. B. Mahon

The Red Cross School House was the scene of a farewell party and presentation last Friday evening, when the congregation of that centre gathered to bid farewell to God speed to their departing minister the Rev. H. A. Boyd, who, after successful work, leaves for Scotland in the near future. There was a large gathering of people from the district.

The presentation was made by Mr. E. A. Woodman, who, after a fitting address, presented Mr. Boyd with a club bag on behalf of the congregation. Mr. Boyd made a suitable reply. He was sorry to leave the district, he said, and he could judge from the gift and the spirit of it that the people were equally sorry that he was going. He greatly appreciated the gift, and he would always remember his many friends in the Red Cross district.

Following the presentation there was a programme of readings, songs and musical numbers. Light refreshments were served, the children of the school contributing the candies, and the men the apples.

The following is the presentation speech made by Mr. Woodman, elder on behalf of the managers, Messrs J. Fulton and T. Love, and the congregation:

We, the members of the congregation of Red Cross wish to take this opportunity of expressing our appreciation of your labors among

THE FLU EPIDEMIC IS NOW WELL ON WANE

But Ban is Still on For a Few Days One Serious Case Reported.

Although the epidemic is still in the district it is steadily on the decline, and health authorities are confident that in the course of a few days, barring a recurrence, it will have passed away. There has been only one case of a serious nature reported this week.

The lifting of the ban has been postponed, however, for a few days. The Medical Health Officer feels that as a precaution it is better to withhold any lifting until signs of abatement are definite. In some places it seems there have been no further outbreaks, and prudence demands slowness in getting round to normal. The ban has been lifted from the pool rooms, but the school and Church are still closed. The former may open the middle of next week and the latter on April 13th. There will be no services held on Sunday at Ensign, Red Cross, Reid Hill or Richmond Hill as a result of the epidemic

OSCAR JOHNSON HAD A NARROW ESCAPE FROM DEATH

Oscar Johnson, who is running Dan Richmond's farm, had a narrow escape from being burned to death last Monday. His injuries were serious and on the border of being fatal; but he is recovering rapidly and hopes to be able to get about again in a short time.

The gasoline pump for the engine which runs the lighting plant for the farm was not working well and Johnson went into the room in the cellar where the machinery is located to fix it, carrying a lighted lamp. He found he feed pipe clogged, and when he cleaned it out the gasoline spurted out and was ignited by the lamp. Johnson then made an unsuccessful attempt to remove the gasoline tank. He was severely burned about the face and arms, and inhaled gas into his lungs; but managed to get out of the room.

The machinery room for the light plant was lined with asbestos paper, and was thought to be fire-proof; but the fire burned through the floor over the room, and it took about three hours persistent fight to save the house.

Johnson was brought to town and taken to the Auditorium Hotel where he is being treated by Dr. Keen. The uncertain element in his case is how seriously his lungs are injured by the gas. —Nanton News

us and of our regret at your departure.

Though your stay with us has been but of brief duration, we realize that you have been to us a true pastor and friend. We have been profited by your exceptional talents as a preacher, and your untiring service in social ways have been marked by success.

We regret that you must leave us for your long sought journey to your homeland and we wish you a safe voyage and a happy time in renewing old acquaintances.

On behalf of the community we now tender you this club bag as a token of appreciation, and we hope that you will find its use ever a reminder of the pleasant times often enjoyed among your many friends in Red Cross district and charge.

Wishing you God-speed in your journey and trusting that some day before very long we may see you again if only for a brief visit, we say Good-bye and Good Luck.

The new minister who will take charge of the field is Mr. W. B. Mahon who comes from Edmonton.

RAILWAYS RUNNING ON THE NEW TIME

The representatives of the railways running on new time in Canada have given their reasons for so doing before the railway commission at Ottawa. Judge Drayton has reserved his decision but states that it will be made public at an early date. In the meantime the railways will be permitted to continue on the new time.

SHOULD MAKE SPORT PREPARATIONS.

Indications are not wanting that many towns in the South of the Province are busy on outlining and preparing for the coming baseball season.

The first year after the war, 1919, is going to figure strongly as a year for sport, as many of the towns that usually ran a baseball team did without the sport while the war was on. Now that conditions are becoming more normal, however, they are going in for the game again; some for amateur and some for professional teams.

With these indications abroad it is time that Vulcan got busy and decided what was to be done during the coming season. We have had a name for good baseball in the past, and last year the town ran a team with which there was no equal in these parts. As to whether we are going to do likewise this year remains to be seen, but some steps one way or the other should be taken and taken as soon as possible.

THE QUALITY OF KINDNESS.

At no time so much as that of sickness does human nature reveal and exercise the deeper and more fundamental emotions of love and brotherhood. It is at such a time that that which is best shines forth, revealing the very mainstays upon which human society is based, helpfulness and love.

Life today, no less than in the days of David, requires its Psalm. Our modern conditions of themselves involve a more practical, hardheaded mode of living which in the main tends to cover up the real and true nature of mankind. In the hurry and bustle of every-day conditions to meet the demands of twentieth century business life with its cares and its worries, there appears to be little room and less time for the exercise of those amenities which mark humanity as something more than mere cogs in the wheel of commercialism, mere material workers toward an ultimate materialism from which the more tender and true things of life seem things apart.

But universal sickness and sorrow provides the open avenue to the hearts of men. At such a time we see the hearts of our fellow men, and feel the sympathy which moves humanity. It is a sympathy for

which one would not exchange the riches of the earth. Like a quiet, reassuring song or poem, or a flower by the side of life's highway, it casts its light of hope and love to gladden and make more bearable the load of the sufferer and the sorrowing one. It is the smallest and at the same time the greatest gift humanity has to offer; the God-given spring welling up in every heart from which those who suffer may receive rest and comfort. It is the exercise of that gift which lifts mankind out of the every-day world of materialism into a sphere where God himself is known and understood.

THE DEMAND FOR SHORTER HOURS.

The great demand of labor for shorter hours, of which we are hearing so much these days, will bear earnest thought and consideration by those from whom the demand comes and those whom it will affect.

Primarily, time, in all labor, is the arbiter of cost, inasmuch as it requires a given amount of time to allow a given output. Now the present demands of labor are for a shorter week at the same or a higher rate of wages as heretofore. If this is granted it means a greater cost per working hour; there will, on the average, be a less output for the same money whether the output be coal, iron, or manufactured goods. Consequently these and all other commodities are going to be affected in price; they are going to go up. And not only the non-producer, but the producer—labor—is going to have to pay that price. On the face of it then, it would appear that labor if its demand is going to get nowhere if the demand is granted, for the simple reason that it will have to pay more for that which it is paid more to produce. And where will the non-laboring classes, the people who will not be getting shorter hours or bigger pay, find themselves in the economic struggle?

While granting that there are certain branches of labor whose demand is justified, it is admitted that other branches of labor are going to be hard hit, if reform, in a few cases, is carried into effect. It would appear justifiable, therefore, that labor conditions as a whole should be a matter of investigation, and if necessary, readjustment. The war has left the past behind, and we can never go back, but in going forward we must do so in uniform measure for if we do not we are simply laying up trouble in the future as we have done in the past. Labor has its just demands, but the society as a whole has an equally fair claim to recognition, and there must be sympathetic and harmonious understanding all round.

AROUND THE TOWN

Now that Spring seems to be with us once again there is a case for individual energy in restoring the town to something like cleanliness. Accumulation of rubbish in alleys and backyards seems as inevitable as plague during the winter months, for when the snow has gone the appearance of them is anything but pleasing. Therefore let every citizen de-

vote some time in the near future to getting a neat and tidy appearance around his place.

As if to make up for the want of logical guidance on the matter, in the Spring the householder's fancy, ever more practical than that of Tennyson's young man, turns to his bit of garden and whatever residential beautification is possible. The merest glance at the store windows confirms the storekeepers' optimism in human nature, for there are displayed stacks of packeted seeds, each packet highly lithographed with a representation of what might be brought to pass with sufficient care—and moisture.

That never failing inspirer of optimism, the nursery representative, has also visited us with his illustrated catalogue and seemingly endless reasons why trees should grow here. He is not to be scoffed at, for an optimist of so established a faith is an acquisition to one's acquaintance. When he is through talking there remains some faint hope that trees, after all, might condescend to grow.

The town is fortunate in having as a citizen to considerate a person as Mr. H. W. Reeves, who, during the illness of the local dairyman, Mr. Cook, is handling the milk supply at his store so that the customers of Mr. Cook may not be without their daily quota. The action is certainly greatly appreciated.

The recent epidemic, now happily on the wane, has shown that on the eve of A. R. Schrag we have a genuine citizen who will gladly go out of his way in the service of others. Ever since the outbreak commenced Mr. Schrag has been here, there and everywhere, helping the doctors. Mr. Schrag studied medicine at McGill, by the way, and doing all in his power to abate the disease and bring ease to the sufferer and comfort to the bereaved.

Appreciation of the work done during the week or so by Dr. Galbraith should not be lacking. When the epidemic was at its worst Dr. Knowles asked Dr. Galbraith if he would kindly help with the medical work. Although Dr. Galbraith was taking a short holiday, having had some sickness himself recently he immediately complied with the suggestion, and his help has been invaluable to the town and district.

One naturally feels sorry for Mr. Meyers, manager of the Community Theatre, these days. After going to the trouble and expense incidental to booking a dozen first-class films, among them "The Whip" and "Hearts of the World," the flu comes along, and, in the vernacular, puts the kibosh on the whole outfit. All businesses are hit, of course, but they are not entirely closed down as the theatre is, with expense as usual. Mr. Meyer has not been in Vulcan long enough to say so, and yet he has been brought up against two flu epidemics. When he does open up he deserves all support for having stayed with an unpromising situation.

Some of the local boys are busy on a minstrel show for production in the near future. The proceeds are to go into an instrument fund for the town band. All those in favor of a town band can now get out and boost the show and its object. Of course, the easiest part about the affair is the raising of the money, and there are many who will agree with this. The amount of work and worry in connection with the organization of a band, and the keeping alive of the interest is no small matter. One advantage, however, is that there is the whole prairie to practice on. A town band will be quite an acquisition, nevertheless.

A MUCH ABUSED CLASS

The chairman of the Devon Farmers Union in Britain at their annual convention stated that the farmers had done their bit to win the war even though they were a much abused class. They had been called profiteers and everything except what they had been christened. Their membership should be three times what it was for anxious times were ahead for agriculture. The burden of their taxes was three times what it should be. Farmers must look after their own interests in Parliament. It was useless to leave their cause to other people.

TEACHERS ANNUAL

IS CANCELLED

At a recent meeting of the Executive Association it was decided to postpone the annual convention until April 1920. The loss of time on account of the influenza epidemic, and the increased railway rates in force, were among the reasons which led to this decision.

How Does Your \$1.50 Stand?

HOW TO PREPARE YOUR GARDEN THIS SPRING

What To Plant And How To
Plant In Order To Get
The Best Results

MARCH

Plan the garden campaign!
Purchase the seeds.
Prepare for the Spring work.

MARCH-APRIL

If you have one, prepare the hotbed or cold frame for use. Fresh stable manure will be necessary for the hotbed. This should be turned several times before it is put into the hotbed.

Force rhubarb and raise early lettuce and radish.

By the middle of April the soil will be ready to work.

Rake over the garden and sow the hardier vegetable seeds, such as carrots, beets, peas, parsnips, radish, onions, white turnips, spinach and Swiss chard.

APRIL, MAY

The regular work of cultivating the garden will commence this month. It should be kept neat and free from weeds.

Plant potatoes and sow the remainder of the vegetable seeds, including string beans and sweet corn.

Sow flower seeds early in May.

JUNE

Continue to keep the garden well cultivated and free from weeds. Watch out for insects and spray the potatoes as soon as they are a few inches above the ground.

Set out the tomato, pepper and egg plants about the first week of June, and sow seed of all the tender vegetables, such as citron, cucumber, pumpkin, melon, etc.

JUNE, JULY

Make second sowings, for succession crops, of such vegetables as beets, peas, radish and corn.

Set out plants of late cabbage.

Sow turnip seed.

JULY, AUGUST

The canning season commences in July.

Young beets and carrots may be canned with success and are of a better flavor than the fully matured roots.

Can the extra sweet corn.

SEPTEMBER, OCTOBER

Many of the vegetables will have to be stored during these two months. The garden may also be manured as soon as the crops are harvested, and plowed for the following Spring.

WHAT SEEDS TO SOW AND HOW

Beans

Sow the seed two inches deep in rows 18 inches apart. Varieties recommended: Stringless Green Pod, Early Red Valentine, Round Pod, Kidney Wax, Wardell's Kidney Wax.

Beets

Sow seed about 1 inch deep in rows 15 inches apart. Varieties recommended: Detroit Dark Red, Early Model and Crosby Egyptian.

Cabbage

Set plants 18 inches apart in the row, with rows 2 feet apart. Varieties recommended: Early Jersey Wakefield and Copenhagen Market (early), Succession (medium), Danish Ballhead and Drumhead Savoy (late), and Red Dutch (red).

Cauliflower

Set plants 18 inches apart in the row, with rows 2 feet apart. Varieties recommended: Early Snowball and Early Dwarf Erfurt.

Carrots

Sow seed about 1/2 inch deep in rows about 15 inches apart. Varieties recommended: Chantancy, Danvers Half Long and Early Scarlet Horn.

Celery

The seed should be sown early in the house and the plants pricked out in late May at about 5 inches apart with the rows 2 feet apart. Varieties recommended: Golden Self Blanking (Paris Golden Yellow) early, Winter Queen, Evans Triumph and Perfection Heartwell, late.

Corn

Sow seed about 2 inches deep in hills 2 feet apart, with rows 3 feet apart. Varieties recommended: Early Malcolm, Golden Bantam and Country Gentleman.

Cucumber

Sow seed about 2 inches deep in hills 18 inches apart, with rows 4 feet apart. Varieties recommended: White Spine and Chicago Pickling.

Lettuce

Sow seed about 1/4 inch deep in rows 15 inches apart. Varieties recommended: Grand Rapids, Black-headed Simpson, Crisp as Ice.

Melons

Sow seed about 2 inches deep in hills 12 inches apart, with rows 6 feet apart. Varieties recommended: Long Island Beauty, Hackensack, Montreal Market and Emerald Gem.

Onion

Sow seed about 1/4 inch deep in

ALDERSYDE NEWS

Messrs Pratt and Rumsey were in Calgary last week.

Mr. and Mrs. Fred Bailey have left for their home in Alsask.

Mrs. Jessie has returned home much improved in health.

The Red Cross Society have completed and sent in to Calgary their last shipment of Red Cross sewing and in the future will sew for the Belgian Relief.

Mr. Harry Wilson is the guest of Mr. Edward Caron.

Mr. and Mrs. Wickstead and family have moved to our neighborhood.

On Saturday afternoon the Girls' Club held a very interesting meeting when quite a number of ladies were present to hear Pte. W. Hill tell of his experiences in First Aid Work at the Front. Mr. Hill's talk and demonstrations were thoroughly appreciated and he touched specially on all practical points. In his discourse he spoke briefly on the following—bandages, fractures, and wounds of all kinds, and of the treatment given by First Aid. The Girls' Club are very desirous of obtaining all the knowledge they can along these lines and Mr. Hill has kindly consented to speak again at a later date.

Service in St. Andrews Church next Sunday at the usual hour.

Mr. and Mrs. E. Tillotson have moved to their new home near Okotoks.

BRANT BUSINESS CHANGE

Messrs Johns & McKay, of Brant, have disposed of their interests in the general store business at Brant, to a Mr. Urquhart, of Lacombe, Alberta, who comes very highly recommended for his integrity and intends to carry on the business fairly well along the same old line of his predecessors. He will carry a larger stock of dry goods than heretofore and will give all his attention to the building up of a trade that the Brant district is capable of supplying. Messrs. Johns & McKay have been in business in Brant for about six years and they respectfully solicit a continuation of their patronage to Mr. Urquhart. They intend to remain in Brant and will carry on their buying and selling of stock as of yore.

Licensing of all homes or "baby farms" in Calgary, where children are kept, will be recommended by Chief of Police Cuddy.

Provincial inspectors in Manitoba say they know one doctor who has made \$75,000 by issuing liquor prescriptions since Manitoba went dry.

The U.F.A. in the federal riding of Medicine Hat, who have decided to place a candidate in the field for the next Dominion election, have arranged that, when nominated he will have to place his resignation in the hands of a committee. Should he be elected and his course in parliament does not meet with the views of the committee, the resignation of the member will be forwarded to the government. This is what is commonly known as having a rod in the back.

Sow about 15 inches apart. Varieties recommended: Yellow Globe Danvers Early Red Wethersfield, Prize Taker.

Parsnip

Sow seed about 1 inch deep in rows 18 inches apart. Varieties recommended: Hollow Crown and Intermediate.

Peas

Sow seed about 2 inches deep in rows 18 inches apart. Varieties recommended: Gradus, American Wonder, Gregory Surprise, McLean Advertiser and many others.

Potatoes

Plant sets 3 inches deep, about 12 inches apart in the row, with 2 1/2 ft. between the rows. Varieties recommended: Irish Cobbler (early), and Green Mountain (late).

Radish

Sow seed about 1/2 inch deep in rows 12 inches apart. Varieties recommended: Scarlet White Tipped Turnip and White Icicle.

Spinach

Sow seed about 1/2 inch deep in rows 15 inches apart. Varieties recommended: Victoria, Thick-leaved.

Salsify

Sow seed about 1 inch deep in rows 15 inches apart. Varieties recommended: Long White, Sandwich Islands.

Squash

Sow seed about 1 inch deep in hills 3 to 4 feet apart, with rows about 6 feet apart. Varieties recommended: Long White Bush, Summer Crookneck, Delicious, Hubbard.

OUR DEBT TO THE HORSES AND MULES OF THE WAR

A Three Minute Address For Be Kind to Animals Week

In the glorious peace which has come at the end of the world war, let us not forget the gratitude we owe to the indispensable and patient horse and mule. They dragged the vast trains of heavy artillery uphill and down, over and around shell-torn ground, and plunged knee-deep through the sticky mud of Flanders. They bore many kinds of burdens on their backs, and they carried the very food to the troops in the trenches. Boast not of motor truck. No tractor under the sun could be driven over some of the ground traversed by our equine helpers, especially up close to the trenches in "no man's land." Amid the bursting of shrapnel and screaming of bombs, and the cursing and shouting of charging men, and the moans and groans of the wounded and dying, they went on. There a noble creature goes down under a burst of shrapnel. Mortally wounded, unable to rise, he is quickly pushed out of the way by firm hands, often accompanied by a pitying glance or word, for the men themselves realize their dependence on their four-footed brothers.

But the moment is vital, the ammunition must reach its destination, so the depleted team plunges on as best it can. A half hour later a shout, rings out from our boys as they drive back the foe with the welcome reinforcement of arms.

And the horses? The stricken one either slowly gasps out his life or agonizes until either a merciful bullet in the hand of the veterinarian ends it all, or, if expedient economically he is mended up again at the hospital, once more to take his place amid that hell of shot and shell. The others have been loaded up ready to do it all over again for their country, and little can we conceive of that fright and terror of battle undergone for us.

And what of our debt to the cavalry? I have heard the remark that part, but I must contradict.

It was the massed attack of horse flesh mounted by our gallant soldiers that discouraged and swept the foe before them in their great retreat and now the Huns driven off the war-worn fields of France and Flanders, the Austrians from Italy and the Turks from other lands, the cavalry will guard those lands while the returning refugees endeavor to reclaim and rebuild the shattered wrecks of once quiet villages and farms.

How many in the dumb army are wounded we cannot guess. Far better were it to speed the merciful bullet on its way than to attempt to mend a shattered constitution and sell its owner into ceaseless toil, a step lower at every sale, until the army horse falls down at last with a groan in the shafts of the ever-present shaky ash cart—his vigor and health for our country—the dump heap for him.

But let us hope the nations are more grateful. The least that could be desired after hospital mending for those that must be disposed of is a good country home where quiet farm work, green pastures and appreciative masters soothe the shattered nerves and blot out the vision of blood-soaked soil and cannon smoke.

"So ye nations raise your voices, Thank God for the peace He sends, And lift your gratitude on high For this army of dumb friends."

—VIRGINIA W. SARGENT.

RE-INVEST WAR BOND INTEREST IN WAR-SAVINGS STAMPS

Holders of Canadian War Bonds in Canada will draw nearly \$60,000,000 in interest this year. What will they do with it? If they are wise they will re-invest a large portion of it in War Savings Stamps. It is of the utmost importance to the country that they should do so.

Of the more than 1,000,000 holders of Canadian War Bonds, probably not 10,000 were owners of Canadian government securities before the outbreak of war. Ninety-five per cent of them had never invested in securities of any kind. The great majority probably were not regular savers.

If they do not re-invest in War Savings Stamps at least a portion of their War Bonds interest, there is grave danger that they may be lost to the large army of savers which it is desired to recruit in Canada. This would be a misfortune both to themselves and to the Dominion.

The burdens following the war are so heavy that no person can afford to waste money. Those who do so take a long chance. Not only should people save but they should also put their savings into a security of unquestioned value that will pay them well and they can get nothing better than War Savings Stamps.

UNION OF CO-OPERATIVE ASSOCIATIONS

By Guy Johnson, President of Alberta Co-Operative Union.

The principal of self-help animated the representatives of co-operative trading associations who met in Calgary last week and proceeded to form a central union for the province of Alberta. The question of U.G.G. officials being invited was discussed at the outset and it was eventually agreed that the ends of the union could be best achieved by confining membership to purely co-operative enterprises acting as retail distributors. Between thirty and forty of the most active and aggressive Alberta co-operators were in attendance.

The by-laws adopted show the high character of the union's objects. The Preamble enunciates the principle that "civilization is the progressive elimination of waste in the expenditure of human energy." Then the objects are logically set forth as follows:

(a) The progressive economizing of human energy by the substitution of co-operative principles in the exchange of commodities as contrasted with the present individualistic, competitive systems.

(b) The prosecution of an energetic educational propaganda showing the advantages to society of co-operative principles in all human relationships.

(c) The advocacy and promotion of new local co-operative associations.

(d) The mutual protection of all Union members by concerted action against unfair discrimination of any nature whatever.

(e) The strengthening of existing co-operative enterprises in the Province of Alberta by moral support, by business conferences and by whatever other action seems best suited to any individual case or need.

(f) The raising of funds for carrying out the objects of this Union.

One democratic provision of the by-laws is that calling for the election of a Convention Chairman "who cannot be an officer or Director of the preceding years."

Many pithy debates occurred on matters of business and the convention throughout was a good example of the business forum in action.

FREE FREIGHT ON HAY IS EXTENDED UNTIL APRIL 30

Applications Must Be Made By April 19 and Hay Moving by Last of Month.

By putting the free freight regulation in effect again the government authorities have relieved what promised to be a very serious condition and granting stockmen and farmers until April 10 to get their applications in and until the last of the month to get their hay on track and moving, should put everybody in good shape so far as getting their supply is concerned.

There has been more excitement in hay circles during the past week than for some time. The possibility of having to pay full freight has made many who were holding off decide that they had better make their arrangements and dealers and those who are offering stocks for sale privately have been getting more orders recently.

Prices have not shown any change so far as the buyers are concerned, though possibly some sellers at advantageous points are able to get above the quotations which have been ruling. However, the large stocks on hand will prevent any serious advance.

At the Calgary hay market the supply has been steady and prices on hay and green feed are unchanged. Green feed has been a little scarcer than usual during the past week or so, but not sufficient to move the price. Feed oats has been advanced another nickel for the best of it.

Following are wholesale prices:—	
Upland, country points	13.00 to 14.00
Slough, country points	11.00 to 12.00
Timothy, country points	27.00 to 29.00
Straw, country points	8.00 to 9.00
Straw, city market	12.00 to 13.00
Upland, city market	22.00 to 25.00
Green feed, market	22.00 to 25.00
Feed oats, city market70 to .80

HIGH RIVER LOCAL NEWS

BAN ON PUBLIC MEETINGS

The members of the local board of health met on Monday afternoon to discuss the health situation and after deliberation decided upon the discontinuance of all public gatherings, the closing of pool rooms and other places of public amusements, commencing Tuesday, April 1st, and until such time as may in their opinion be deemed advisable.

The Moline Tractor delivered one horse power for every 169 lbs. weight. How would that suit your land?

AT THE LEGISLATURE:

The Budget debate has been going on during the past week. The Hon. Duncan Marshall has announced three new Demonstration Farms, one at Raymond, one at Gleichen and one at Youngstown.

The Hon. Mr. McLean has laid down a map of main highways.

The part of special interest to High River consists of a trunk road leaving the existing Calgary to Macleod trunk road at High River. It extends eastward 5 miles then south 4 miles, thence east to the village of Brant, thence south 8 miles, thence east to the town of Vulcan. From Vulcan it runs south to Lethbridge.

It is now definite that the rural telephone construction will be built on the frontage plan. A tax will be placed against each quarter section whether it is occupied or not and those lands which front upon a proposed rural line will be assessed for telephone tax. Details of the legislation will follow later.

The propaganda carried on for the past five years by your local member, Dr. Stanley, M.L.A., on behalf of the feeble-minded, the insane and the tuberculosis patients has at length been magnificently rewarded. The estimates show \$100,000 for a home for the feeble-minded and \$25,000 for their care. \$267,500 is to be voted for an addition to the Ponoka Asylum. \$200,000 is to be voted for the tuberculosis sanitarium at Bowness.

Dr. Stanley is justly elated by these votes of money.

The Public Accounts Committee have enquired into various matters. Paul Whiff, one of the Mennonite leaders from the new Mennonite colony in the South of Alberta was called as a witness and stated that he had visited the Parliament Buildings at Edmonton and had met members of the Government and various government officials and consulted and consulted with them as to their proposed settlement.

A further investigation into the travelling expenses of government officials in the Beaver River Constituency during the election campaign of the Hon. Wilfrid Gariepy has been going on and amounts running into the hundreds of dollars have been paid by the Province in this regard. One interesting item shows that \$52,22 was paid out for 50 copies of the "Life of Archbishop Langevin." These were ordered by the Minister himself and the deputy Minister swore he knew nothing as to their purchase or disposal. The sensational developments in the Public Accounts Committee has to do with the investigation of the liquor vendors supply of liquor. Tremendous quantities have been supplied to druggists and Dr. Stanley's return shows that 304,000 ounces were sold in Edmonton by druggists in Calgary. One Calgary doctor gave 803 prescriptions during the month of February which at \$2.00 apiece would net him over \$1,600 for the month.

An interesting report of an address given by your local member is taken from "The Gateway" published by the students union of the university of Alberta, as follows:

Re-Construction.

"The new standard of service for doctors, the great opportunity for students who were entering the medical field and the new ideal in medicine were the chief things discussed at the last meeting of the Reconstruction group when an excellent speech from Dr. Stanley, M. L. A. provoked a storm of favorable com-

ment. While the medical students were particularly elated by the bouquets which they received, the remainder of the audience appreciated the advance that is being made in medical ideals.

The old ideal, Dr. Stanley says, was to let a man get sick and then let the doctor try to cure him. While the doctors are supposed to protect the people from disease, they do not get any pay unless they neglect their duty and somebody gets sick. The coming ideal is to force and pay the doctor to keep the community well.

This new policy would also have a periodical examination of all people in the state. Now when a man is so sick that he cannot work he comes to the doctor, usually too late for the doctor to do anything except patch up the man. By this examination men would not be called upon to do anything outside their physical powers. "Why," he said amidst laughter, "probably 75 per cent of the students here are abnormal and should not be in this institution." Dr. Stanley did not answer Prof. Gaetz's question as to which provincial institution he would propose for the students.

He thinks that all health agencies, including hospitals, doctors and boards should be controlled by the State.

Dr. Stanley concluded his address by eulogizing the medical profession and saying that no other class of people do so much for nothing as do the doctors. "It is the noblest profession there is and offers great opportunities, greater even for men than for women."

The questions were wide and varied, touching on distant subjects as the proper feeding of children, the sunlight cure for tuberculosis, the success of provincial nurses, medical inspection of rural schools and other topics. The meeting which was probably the best of the series to date was more informal than the preceding meetings and had a very capable chairman in Dr. Sheldon.

EFFECT OF THE ARMISTICE ON HOARDED MONEY

There is reason to think that hoarding money was practiced a great deal more during the war than is generally believed. With peace assured the hoarded money is now beginning to appear, and it is to be hoped that quite a lot of it will go to buy War Savings Stamps.

In the United States it is estimated that \$1,500,000,000 were hoarded by foreigners during the war period. Banking authorities say that since the signing of the Armistice, this hoarded money has come out to a surprising extent and this opinion is confirmed by the saving bank deposits. In New York State this class of deposits increased by \$39,400,000 during the period from December 28th, 1918, to January 12th, 1919.

Undoubtedly the cessation of hostilities has had a similar effect on hoarded money in Canada, for it is well known that hundreds of people of foreign birth drew money out of the bank and either carried it away on their person or hid it. The question is—how much of this money will go into War Savings Stamps? The whole country is vitally interested in seeing that a large portion of it is thus invested, while it is to the interest of the person holding such money to put it to this use.

LOCAL STOCK SHIPMENTS

Mr. Murphy shipped a load of cattle up from Vulcan on Tuesday consigned to P.-D.-H.

F. A. Bilton had a couple of loads of hogs up from Vulcan on Wednesday.

Ben Hart had a load of cattle in from Blackie on Wednesday, consigned to P.-D.-H.

E. Sleeman, of High River, got a couple of loads of cattle in the yards last week which were shipped out by P.-D.-H.

Bischoff Brothers, of High River, got a load of cattle in the yards last week-end through P.-D.-H.

J. M. Dillon got a couple of loads of stockers in the yards last week which were shipped down to the Mayer-Lage ranche, High River, on Friday.

The load of calves which F. Randall, of High River, got at MacLean's sale were shipped out on Monday.

F. G. Smith, of Champion, had a load of hogs on the market Wednesday.

McKay Brothers, of Carmangay, had a load of cattle on the market on Wednesday, consigned to the U.G.G.

Market Examiner.

Mary's Letter to Florence

Dear Sister Florence:

In your last letter which we all read, Fred was most particularly impressed with your mention of the children. Of course we have only one, it is true, but Mary is now 17, and we are beginning to realize our grave responsibility towards providing her with happy company and healthful surroundings. You can't accomplish much along such lines in a shack. As Fred says, years ago we housed our horses and cows in sod barns and they paid us accordingly. Now we take care of them in real barns, and they return full interest on such investments. Should we count our children less than our stock?

Last evening "Hubby" drew a rough sketch of a parlor and den, with an enticing wide screened-in verandah. I am very hopeful.

Your loving sister,
Mary.

Notice to School Districts Desiring to Hold School Fairs Commencing in the Spring of 1919

The Department of Agriculture at Edmonton purposes giving assistance in the organization, management and financing of School Fairs through the School of Agriculture at Claresholm. This notice has reference to the territory in Southern Alberta extending from the main line of the C.P.R. South to the boundary.

Briefly, the plan is that a committee of interested citizens shall be organized at the centre at which it is proposed to hold a Fair, which committee will share with the Department of Agriculture and Education the work and expense of the Fair. A group of from eight to twenty-five schools convenient to the centre will be selected. Garden seeds will be distributed through the committee to the pupils of these schools. The pupils will plant the seeds at home, care for the gardens during the Summer and in the Fall, exhibit samples of the products at a Fair. Girls will receive recipes and instructions in connection with the sewing and cooking that they will exhibit at the Fair.

For further particulars apply immediately to

W. J. STEPHEN, Principal,

School of Agriculture,
Claresholm, Alberta.

J. WOSBERG, Lomond P.O.

A shipbuilding and repair firm in Victoria, B.C., lost a \$50,000 job because its workers were on strike. The work went to Seattle.

ASPARAGUS AND ONION CULTURE

That delicious vegetable asparagus, available only in the early Spring and early summer months, might readily be grown much more extensively than it is. If properly prepared, that is well drained, a bed may remain for twelve or fifteen years and will improve during this period if properly looked after. One has to wait a couple of years for a crop after the bed is set out but the relief from planting, which is necessary with most crops, during succeeding years more than offsets this disadvantage. Asparagus culture is dealt with in a practical way in Pamphlet No. 24 of the Central Experiment Station, which is available at the Publications Branch at the Department of Agriculture, Ottawa. In this pamphlet celery culture is also taken up. The soil, growing the plants, planting, cultivation, blanching and forcing are dealt with.

That appetizing vegetable the onion also occupies a place in this pamphlet which points out that the seed should be sown about one-half an inch deep in rows from twelve to fourteen inches apart at the rate of from four to six pounds per acre. The large red Wethersfield, Yellow Globe Danvers, and Southport Yellow Globe are recommended as suitable for the warmer sections of Canada.

NOTICE TO RED CROSS WORKERS

A letter from Provincial headquarters has been received by the executive of the local branch of the Red Cross Society requesting that an inventory of all hospital supplies on hand be sent in.

As there is a lot of hospital work in the hands of workers, a request is made that it be turned in as soon as possible to Mrs. Roy Walker in order that the inventory may be made.

This request does not apply to the refugee work.

GERMANS DEPOSIT GOLD

The French foreign office was advised today that 55,000,000 in gold was deposited Tuesday by the Germans in the Belgian national bank at Brussels. The gold is collateral for the payment of food stuffs which the allies are permitting to enter Germany.

ada. Early White Barletta and White Queen are suitable sorts for pickling, while in the Prairie Provinces Extra Early-Red or Early Red give best results.

NOT IN FAVOR OF DROPPING POLICY OF FREE HOMESTEADS

Western Supporters of Government in Commons Discuss Policies in Caucus With Minister

Government supporters from the Provinces West of the Great Lakes were in caucus again today with Hon. Arthur Meighen, minister of the interior, in regard to the question of Western homesteads and leasing.

At a caucus held a week ago the suggestion was made that the government should abandon the policy of granting free homesteads in Western Canada. There was a great diversion of opinion in regard to this proposal. At today's gathering it was apparent that the consensus of opinion was adverse to a change in what has been the government policy for many years past.

There was considerable discussion as to the proper policy to be adopted in respect of grazing land. The suggestion was made that in future leases should be for a ten-year period, with the privilege given to the party holding the lease to drop it at the end of three years after giving notice. It was proposed that the rental of leased land should be increased from two to five or seven cents per acre.
